

Ramu Akarapu

Frontend Developer

Denmark

ramu0225@gmail.com | +4571882266 | [linkedin](#) | [Github](#) | [Portfolio](#)

As a Master in IT & 3+ years of experience in web development, I would like to work as a frontend developer with passion & curious to learn new technologies. I am self-motivated, goal oriented, team player with positive attitude.

PROJECTS

Online Chef Services (at Gustasi.com)

Design & development of new features in dashboard UI, converting existing application into progressive web application. Implementing service worker which act as a proxy between the web browsers and API.

TypeScript, ReactJS, Material UI, Rest API.

Service Management Application (at HumanCare A/S)

The application is design & developed for filling up the communication gap between manager and employees. The data is fetched from the work management tool and scheduling the available shift accordingly with the application.

TypeScript, ReactJs, Redux, Material UI, NodeJS, Express, PostgreSQL, Rest API, Git, Heroku, Ngrok.

Books-To-Read e-commerce application (at Integrify A/S)

The website is to buy or rent a book, where you can subscribe with google or facebook login. The project is executed as a part of full stack developer at Integrify.

TypeScript, ReactJs, Redux, Material UI, NodeJS, Express, MongoDB/Mongoose, Rest API, Git.
